

## Wireless Presentation System

Get information at the touch of a button with the **A2T | Share**, the latest stand alone wireless presentation box, powered by *EShare*.

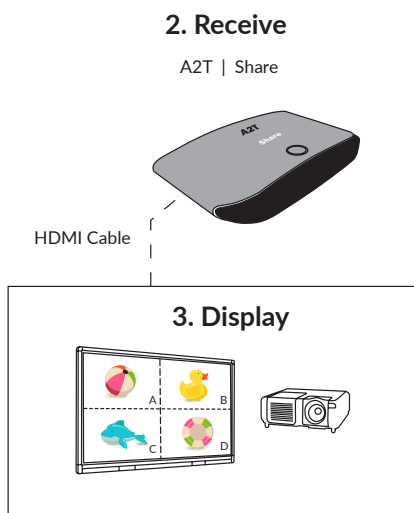

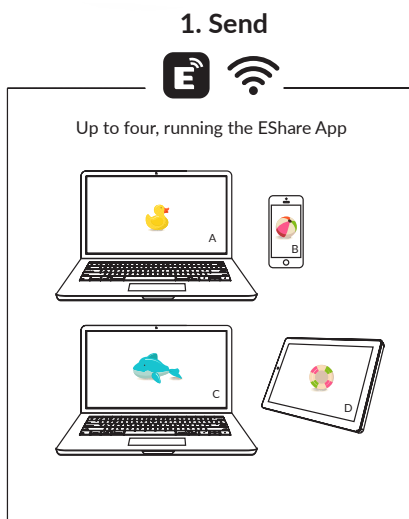

### Presenting Wirelessly is Easy

The **A2T | Share** is ideal for integrating your existing display screens or data projectors<sup>^</sup> to create a true wireless presentation system.

It allows any device running the *EShare App* to easily and seamlessly connect and **screen mirror** or **video stream** from a smartphone to a Windows laptop, iPad or MacBook etc.\*

**Multiscreen interaction** is also available and allows up to 4 devices to be connected to the **A2T | Share** at the same time.

**It's time to cut the cables and display your presentation wirelessly with the A2T | Share!**

### Key Features

- ▶ Share screens from Windows, Mac and Android
- ▶ Dual Wi-Fi module allows network and hotspot connection to run simultaneously
- ▶ Display up to four screens via Multiscreen
- ▶ Can be used with USB or HDMI wireless display dongle

<sup>^</sup>Display screens and Data Projectors require a HDMI input.

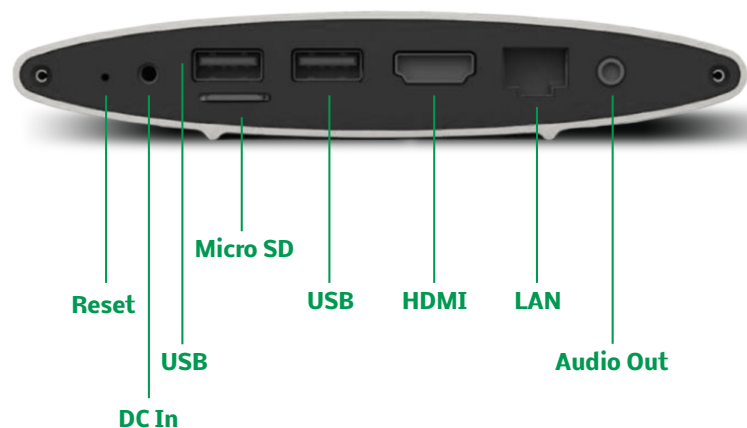

\*All devices need to be connected to the same network as the A2T | Share.
